India Future Ready!!!**

Effective Technologies For Effective Minds

A man without EDUCATION is like a BUILDING WITHOUT FOUNDATION... Never stop Learning because life never stops Teaching.

We provide a wide range of ongoing job-related education and training to keep your students, employees up-to-date on the very latest in technical, job-related and management knowledge. Our teams are made up of specialists who rank among the very best in their field on a country-wide scale. To make sure that our technical experts stay ahead of the game, they regularly take part in specialized training programs on a country-wide basis.

“A trained student can give your College, School or institution a good alumni who directly/indirectly helps to build your brand image.”

Why choose HT India Labs:-

- Industry recognition and innovation
- Breadth of programs and range of audiences served
- Delivery methods offered
- Strength of clients
- India’s excellent Trainers
- Expertise in Technical as well as Non-technical trainings
- Geographic reach
- Experience serving the market
- WE strongly believe in taking feedback (through different mechanisms) of the impact of training

SPENDING ON TRAINING IS NOT A COST BUT AN INVESTMENT.

Next-generation Technologies to help you step in the corporate world.

WORKSHOPS

Our two days workshops on each technology is a practice to share overview and guide students about the technology by giving hands on experience to them. We act as a mediator between Technology & Students to improve their academic performance by providing non-syllabus inputs in various Emerging Technologies. Our vision is to empowering youth through high quality & endless education..

TRAININGS

We deliver interactive training which equip its participants with better practical understanding and preparation for jobs in industry. The hands-on sessions and lectures are designed based on current industry trends and draw on the rich experience of instructors and organizers..

FDPs

Our Faculty Development Programme (FDP) aims at equipping teachers with skills and knowledge that are essential for inculcating various values in students and guiding and monitoring their progress towards career.

PROJECTS

We also initiated giving special guidance to the students who want to make projects apart from our regular training programs. Our expert panel will share knowledge with the concerned student and guide them throughout the project and make sure his learning improves during the same.

Let our training and counselling programs help you remain at the top of your game and continue to grow. Constant learning is essential to our success—and to having the best talent in the industry, which is why we make learning—from basic skills to industry-specific content—available to all our people. Join our training and achieve excellence in your career. We deliver training to make you employable.

TO ORGANIZE / TO JOIN OUR WORKSHOPS or TRAINING please visit www.htindialabs.com or mail us at info@htindialabs.com

WHY PARTNER WITH US? Let’s join hands and celebrate success of each other together and support each other in downtime. We encourage Universities/ Colleges to come along and join hands to achieve the vision of HT India Labs as well as have mutual benefits for yourselves too. Together we can share a space where we can help student community to learn, grow and explore their hidden potential.

We, the team of HT INDIA LABS, is working towards the vision to develop Indian student's fraternity as highly skilled professionals in different fields of education. It is a leading player in India to provide training in almost all the technologies related to engg, management, schools, corporate, professionals and other all possible audience. HT India Labs is a well known and trusted brand in the field of education trainings. HT India has a wide and vibrant

profile which is catering to a range of so many professional courses which are customized to suit the aspirations of different streams. We believe in growing our team, we believe in developing interpersonal skills of people who work with us and even support and mentor if they would like to go for starting up their own business in future.

At HT INDIA LABS, learning is continuous, flexible and democratized. We provide a rich learning environment even as we continue to pursue training innovations. We develop innovative, state-of-the-art high-tech trainings.
